With the following information we inform you about the contents of our newsletter as well as the registration, dispatch and statistical evaluation procedure and your rights of objection. By subscribing to our newsletter you agree to the receipt and the described procedures.

Content of the newsletter: We send newsletters, e-mails and other electronic notifications containing advertising

information (hereinafter "newsletters") only with the consent of the recipients or a legal permission. If the contents of a newsletter are specifically described within the scope of a registration, they are decisive for the consent of the users. In addition, our newsletters contain information about our services and us.

Double opt-in and logging: Subscription to our newsletter takes place in a so-called double opt-in procedure. This means that after registration you will receive an e-mail asking you to confirm your registration. This confirmation is necessary so that no one can log in with other e-mail addresses. Subscriptions to the newsletter are logged in order to be able to prove the registration process in accordance with legal requirements. This includes the storage of the login and confirmation time, as well as the IP address. The changes to your data stored with the shipping service provider are also logged.

Credentials: To subscribe to the newsletter, simply enter your e-mail address. Optionally, we ask you to enter a name in the newsletter in order to address us personally.

The registration procedure is recorded on the basis of our legitimate interests pursuant to Art. 6 para. 1 lit. f GDPR. We are interested in the use of a user-friendly and secure newsletter system that serves both our business interests and the expectations of users and also allows us to provide proof of consent.

Cancellation/Revocation - You can cancel the receipt of our newsletter at any time, i.e. revoke your consent. You will find a link to cancel the newsletter at the end of each newsletter. We may store the e-mail addresses we have unsubscribed for up to three years on the basis of our legitimate interests before we delete them in order to be able to prove a previously given consent. The processing of these data is limited to the purpose of a possible defence against claims. An individual application for cancellation is possible at any time, provided that at the same time the former existence of a consent is confirmed.

Newsletter - Dispatch service provider

The newsletter is sent by the mail service provider "MailChimp", a newsletter delivery platform of the US provider Rocket Science Group, LLC, 675 Ponce De Leon Ave NE #5000, Atlanta, GA 30308, USA. The data protection regulations of the shipping service provider can be viewed here: <https://mailchimp.com/legal/privacy/>. The Rocket Science Group LLC d/b/a MailChimp is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with the European data protection level (<https://www.privacyshield.gov/participant?id=a2zt0000000TO6hAAG&status=Active>). The dispatch service provider is used on the basis of our legitimate interests according to Art. 6 Para. 1 letter f GDPR and an order processing contract according to Art. 28 Para. 3 S. 1 GDPR.

The shipping service provider can use the recipient's data in pseudonymous form, i.e. without assignment to a user, to optimize or improve its own services, e.g. to technically optimize the dispatch and presentation of the newsletter or for statistical purposes. However, the shipping service does not use the data of our newsletter recipients to write them down itself or to pass the data on to third parties.

Newsletter - Performance Measurement

The newsletters contain a so-called "web-beacon", i.e. a pixel-sized file which is downloaded from our server when the newsletter is opened or, if we use a shipping service provider, from whose server. Within the scope of this retrieval, technical information, such as information about the browser and your system, as well as your IP

address and time of retrieval are initially collected.

This information is used to technically improve the services based on the technical data or the target groups and their reading behaviour based on their retrieval locations (which can be determined using the IP address) or access times. The statistical surveys also include determining whether the newsletters are opened, when they are opened and which links are clicked. For technical reasons, this information can be assigned to the individual newsletter recipients. However, it is neither our endeavour, nor, if used, that of the shipping service provider, to observe individual users. The evaluations serve us much more to recognize the reading habits of our users and to adapt our contents to them or to send different contents according to the interests of our users.

Google Analytics

On the basis of our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online offer within the meaning of Art. 6 para. 1 lit. f. GDPR) we use Google Analytics, a web analysis service of Google LLC ("Google"). Google uses cookies. The information generated by the cookie about the use of the online offer by users is generally transferred to a Google server in the USA and stored there.

Google is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with European data protection law (<https://www.privacyshield.gov/participant?id=a2zt000000001L5AAI&status=Active>).

Google will use this information on our behalf to evaluate the use of our online offer by users, to compile reports on the activities within this online offer and to provide us with further services associated with the use of this online offer and the use of the Internet. Pseudonymous user profiles can be created from the processed data.

We use Google Analytics only with IP anonymization enabled. This means that Google will reduce the IP address of users within Member States of the European Union or in other states party to the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there.

The IP address transmitted by the user's browser is not merged with other Google data. Users can prevent the storage of cookies by setting their browser software accordingly; users can also prevent Google from collecting the data generated by the cookie and relating to their use of the online offer and the processing of this data by Google by downloading and installing the browser plug-in available under the following link: <https://tools.google.com/dlpage/gaoptout?hl=en>.

Further information on data use by Google, possible settings and objections can be found in Google's data protection declaration (<https://policies.google.com/technologies/ads>) and in the settings for the display of advertisements by Google (<https://adssettings.google.com/authenticated>).

Users' personal data will be deleted or made anonymous after 14 months.

Google / Marketing Services

On the basis of our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online offer within the meaning of Art. 6 para. 1 lit. f. GDPR) the marketing and remarketing services ("Google Marketing Services" for short) of Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA, ("Google").

Google is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with European data protection law (<https://www.privacyshield.gov/participant?id=a2zt000000001L5AAI&status=Active>).

The Google marketing services allow us to target ads for and on our site in order to present users only with ads that potentially match their interests. For example, if a user sees ads for products he has been interested in on other websites, this is referred to as "remarketing". For these purposes, when our and other websites on which Google marketing services are active are accessed, Google directly executes a code from Google and (re)marketing tags (invisible graphics or code, also known as "web beacons") are integrated into the website. With their help, an individual cookie, i.e. a small file, is stored on the user's device (comparable technologies can also be used instead of cookies). Cookies can be set by various domains, including google.com, doubleclick.net, invitemediamedia.com, admeld.com, googlesyndication.com or googleadservices.com. In this file it is noted which websites the user visits, which contents he is interested in and which offers he has clicked on, furthermore technical information about the browser and operating system, referring websites, visiting time as well as further information about the use of the online offer. The IP address of the users is also recorded, whereby we inform within the framework of Google Analytics that the IP address is shortened within member states of the European Union or in other signatory states of the European Economic Area Agreement and only in exceptional cases completely transmitted to a Google server in the USA and shortened there. The IP address is not combined with the user's data within other Google offers. The above information may also be linked by Google to such information from other sources. If the user then visits other websites, the ads tailored to his interests can be displayed.

Users' data is processed pseudonymously within the framework of Google marketing services. This means that Google does not store and process, for example, the names or e-mail addresses of users, but processes the relevant data cookie-related within pseudonymous user profiles. This means from Google's point of view, the ads are not managed and displayed for a specifically identified person, but for the cookie holder, regardless of who this cookie holder is. This does not apply if a user has expressly permitted Google to process the data without this pseudonymisation. The information collected by Google marketing services about users is transmitted to Google and stored on Google's servers in the USA.

One of the Google marketing services we use is the online advertising program "Google AdWords". In the case of Google AdWords, each AdWords customer receives a different "conversion cookie". Cookies cannot therefore be traced through the websites of AdWords customers. The information collected by the cookie is used to generate conversion statistics for AdWords customers who have opted for conversion tracking. AdWords customers see the total number of users who clicked on their ad and were redirected to a page with a conversion tracking tag. However, you will not receive any information that personally identifies users.

We may include third-party advertisements based on the Google marketing service "AdSense". AdSense uses cookies to enable Google and its partner sites to serve ads based on users' visits to this site or other sites on the Internet.

We can also use the "Google Tag Manager" to integrate and manage Google analysis and marketing services into our website.

Further information on Google's use of data for marketing purposes can be found on the overview page: <https://www.google.com/policies/technologies/ads>, Google's data protection declaration can be accessed at <https://www.google.com/policies/privacy/>

If you wish to object to interest-based advertising by Google marketing services, you can use the setting and opt-out options provided by Google: <https://www.google.com/ads/preferences>.

Facebook Pixel, Custom Audiences and Facebook Conversion

Due to our legitimate interests in the analysis, optimisation and economic operation of our online offer and for these purposes the so-called "Facebook pixel" of the social network Facebook, which is operated by Facebook

Inc., 1 Hacker Way, Menlo Park, CA 94025, USA, or, if you are based in the EU, Facebook Ireland Ltd, 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland ("Facebook"), is used within our online offer.

Facebook is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with European data protection law (<https://www.privacyshield.gov/participant?id=a2zt0000000GnywAAC&status=Active>).

With the help of the Facebook pixel, Facebook is able to determine the visitors of our online offer as a target group for the presentation of ads (so-called "Facebook ads"). Accordingly, we use the Facebook pixel to display the Facebook ads we post only to Facebook users who have also shown an interest in our online offering or who have certain features (e.g. interests in certain topics or products that are determined by the websites visited) that we transmit to Facebook (so-called "custom audiences"). We also want to use the Facebook pixel to ensure that our Facebook ads meet the potential interest of users and are not a nuisance. The Facebook pixel also helps us understand the effectiveness of Facebook ads for statistical and market research purposes by showing whether users have been redirected to our website after clicking on a Facebook ad (so-called "conversion").

Facebook processes the data in accordance with Facebook's Data Usage Policy. Accordingly, general information on the display of Facebook ads can be found in the Facebook Data Usage Policy: <https://www.facebook.com/policy.php>. For specific information and details about the Facebook pixel and how it works, please visit the Facebook Help section: <https://www.facebook.com/business/help/742478679120153>.

You can object to the collection by the Facebook pixel and use of your data to display Facebook ads. To set what types of ads you see within Facebook, you can visit the page set up by Facebook and follow the instructions on usage-based advertising settings: <https://www.facebook.com/settings?tab=ads>. The settings are platform-independent, i.e. they are applied to all devices, such as desktop computers or mobile devices.

You may also object to the use of cookies for range measurement and advertising purposes via the deactivation page of the network advertising initiative (<https://optout.networkadvertising.org/>) and additionally the US website (<https://www.aboutads.info/choices>) or the European website (<https://www.youronlinechoices.com/uk/your-ad-choices/>).

Online presence in social media

We maintain online presences within social networks and platforms in order to communicate with active customers, interested parties and users and to inform them about our services. When accessing the respective networks and platforms, the terms and conditions and the data processing guidelines of their respective operators apply.

Unless otherwise stated in our privacy policy, we process the data of users who communicate with us within social networks and platforms, e.g. write articles on our websites or send us messages.

Integration of third-party services and content

Within our online offer, we make no representations or warranties of any kind based on our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online offer within the meaning of Art. 6 para. 1 lit. f. GDPR) content or service offerings of third parties to incorporate their content and services, such as videos or fonts (hereinafter uniformly referred to as "content").

This always presupposes that the third party providers of this content perceive the IP address of the users, since without the IP address they could not send the content to their browser. The IP address is therefore required for the display of this content. We make every effort to use only those contents whose respective providers use the IP address only for the delivery of the contents. Third-party providers may also use so-called pixel tags (invisible graphics, also known as "web beacons") for statistical or marketing purposes. Pixel tags" can be used to

evaluate information such as visitor traffic on the pages of this website. The pseudonymous information may also be stored in cookies on the user's device and may include technical information about the browser and operating system, referring websites, visiting time and other information about the use of our online offer, as well as be linked to such information from other sources.

Vimeo

We can integrate the videos of the platform "Vimeo" of the provider Vimeo Inc, Attention: Legal Department, 555 West 18th Street New York, New York 10011, USA. Privacy policy: <https://vimeo.com/privacy>. We point out that Vimeo may use Google Analytics and refer to the privacy policy (<https://www.google.com/policies/privacy/>) and opt-out options for Google Analytics (<https://tools.google.com/dlpage/gaoptout?hl=en>) or Google's settings for data use for marketing purposes (<https://adssettings.google.com/>).

YouTube

We integrate the videos of the platform "YouTube" of the provider Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. Privacy Policy: <https://www.google.com/policies/privacy/>, Opt-Out: <https://adssettings.google.com/authenticated>.

Using Facebook Social Plugins

On the basis of our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online offer within the meaning of Art. 6 para. 1 lit. f. GDPR) Social Plugins ("Plugins") of the social network facebook.com, which is operated by Facebook Ireland Ltd, 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland ("Facebook"). The plugins can display interaction elements or content (e.g. videos, graphics or text contributions) and are identified by one of the Facebook logos (white "f" on blue tile, the terms "like", "like" or a "thumbs up" sign) or are marked with the addition "Facebook Social Plugin". The list and appearance of Facebook Social Plugins can be viewed here: <https://developers.facebook.com/docs/plugins/>.

[Facebook](#) is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with European data protection law (<https://www.privacyshield.gov/participant?id=a2zt000000GnywAAC&status=Active>).

When a user calls up a function of this online offer that contains such a plugin, his device establishes a direct connection to the Facebook servers. The content of the plugin is transmitted by Facebook directly to the user's device and integrated into the online offer. The processed data can be used to create user profiles. We therefore have no influence on the amount of data Facebook collects with the help of this plugin and therefore inform users according to our level of knowledge.

By integrating the plugins, Facebook receives information that a user has called up the corresponding page of the online offer. If the user is logged in to Facebook, Facebook can assign the visit to his Facebook account. When users interact with the plugins, such as pressing the Like button or posting a comment, the information is sent directly from your device to Facebook and stored there. If a user is not a member of Facebook, it is still possible for Facebook to obtain and store their IP address. According to Facebook, only an anonymized IP address is stored in Germany.

The purpose and scope of the data collection and the further processing and use of the data by Facebook, as well as the relevant rights and setting options for the protection of users' privacy, can be found in Facebook's data protection information: <https://www.facebook.com/about/privacy/>.

If a user is a Facebook member and does not want Facebook to collect data about him via this online offer and

link it to his membership data stored on Facebook, he must log out of Facebook before using our online offer and delete his cookies. Further settings and objections to the use of data for advertising purposes are possible within the Facebook profile settings: <https://www.facebook.com/settings?tab=ads> or via the US page <http://www.aboutads.info/choices/> or the EU page <https://www.youronlinechoices.com/>. The settings are platform-independent, i.e. they are applied to all devices, such as desktop computers or mobile devices.

Twitter

Functions and contents of the Twitter service, offered by Twitter Inc, 1355 Market Street, Suite 900, San Francisco, CA 94103, USA, can be integrated into our online offering. This may include, for example, content such as images, videos or texts and buttons with which users can express their appreciation of the content, subscribe to the authors of the content or our contributions. If the users are members of the Twitter platform, Twitter can assign calling up the above content and functions to the users' profiles there. Twitter is certified under the Privacy Shield Agreement and thus offers a guarantee to comply with European data protection law (<https://www.privacyshield.gov/participant?id=a2zt0000000TORzAAO&status=Active>).
